

Cleaning to Prevent Errors

Ingenico Cleaning Card

KWING-HSCB40
(Ingenico Part # 296118799)

The Ingenico Cleaning Card is approved by Ingenico to clean both the smart card insert and the magnetic swipe pathways on all models of Ingenico card readers. When inserted it will:

- Remove air pollutants, dirt and oils that can build up on the reader's contact mechanisms
- Quickly remove contaminants safely from Ingenico card reader's chassis and keypads

Use as:

- A scheduled maintenance product to prevent information misreads
- An emergency maintenance product to correct errors and misreads immediately

How Waffletechnology® Works

The cleaning waffles are flexible, raised platforms that allow the card to clean previously unreachable areas within the equipment.
