

Thermal Printer Cleaning Pen

KT-PJB12

This product is designed to remove ink, dirt and contaminants from thermal print heads. When used it will:

- Clean burnt-on debris from thermal print heads within direct transfer and ribbon transfer printers
- Extend the life of the print head and maintain a crisp, legible image.

Use as:

- A scheduled maintenance product to prevent debris build-up
- An emergency maintenance product to correct poor print jobs

How Cleaning Products Work

Transaction devices, such as card readers and thermal printers, need to be maintained for performance reliability. Cleaning products safely and easily remove dirt and other contaminants from within these devices without costly outside assistance. Each transaction device requires specific cleaning products to be used as preventive or corrective maintenance.

IPA 99.7%	Thermal Printer Cleaning Pen	
	12 Pens
