

Cleaning to Prevent Errors

Seiko Instruments Smart Label Printer Cleaning Card with Waffletechnology

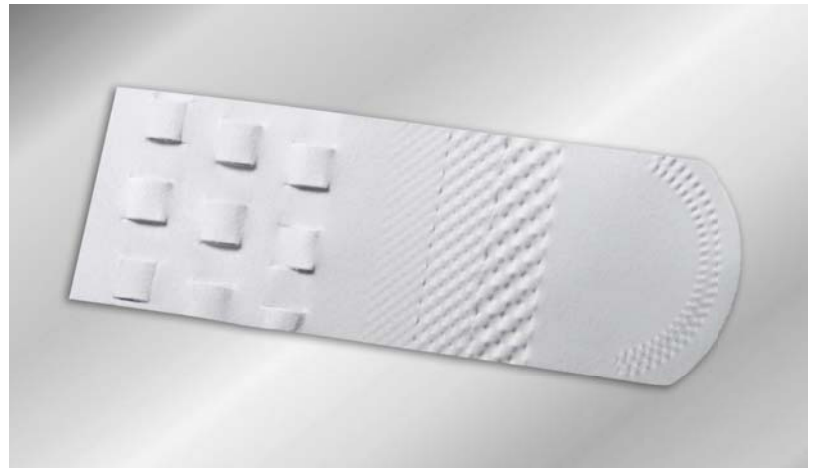

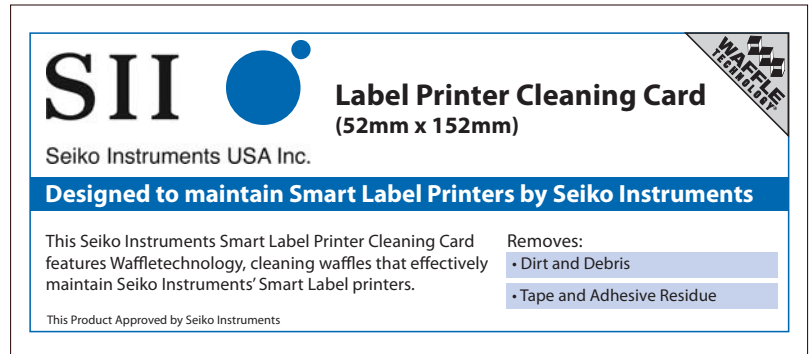

KWSKO-T26B15

This Seiko Instruments Smart Label Printer Cleaning Card features Waffletechnology, cleaning waffles that effectively maintain Seiko Instruments' Smart Label printers. When inserted it will:

- Remove dirt and adhesives from the print head within Seiko Instruments' Smart Label printers.
- Clean the platen rollers
- Clean the media pathways

Use as:

- A scheduled maintenance product to prevent poor printed copy
- An emergency maintenance product to correct poor printed copy

How Waffletechnology® Works

The cleaning waffles are flexible, raised platforms that allow the card to clean previously unreachable areas within the equipment.
